

Automation Organizer

**Wind O/I-NV2**

# OI Touchscreen Programming Software

Operates on 64-bit Windows 7, providing easy programming with fewer clicks required, enabling efficiency.  
The workspace is flexible and easy to use.

## Dynamic and flexible screen designs

The ribbon organizes commands in groups and tabs, making it possible to find commands easily and quickly.

## Easy-to-view work space

Project structure can be listed for easy viewing, and switched to the editing screen in one click.

## Design screens using the object list

Device, operating conditions, and type of command can be read from the object list.

During debugging, data stored in the device is shown in popups, and operating conditions can be distinguished via color.

## Graphic library with extensive collection of images

7000 graphic images can be selected from the library tool.  
Graphics that are used frequently as part images can be quickly selected from the parts list.

## Easy programming

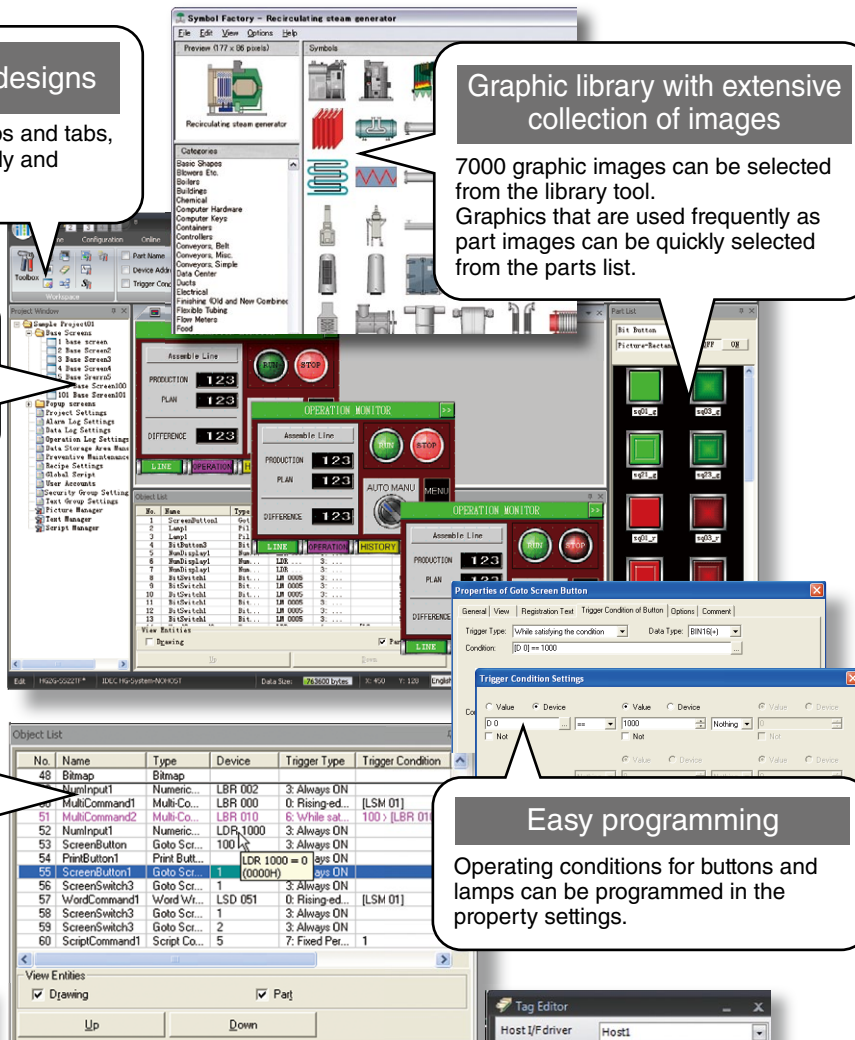

Operating conditions for buttons and lamps can be programmed in the property settings.

## Create language screens easily

Switch to any of the supported languages by using the text manager within the same project.  
Translation is easy as Unicode format files can be imported/exported.

## Tag editor shows available devices at a glance

Device addresses used in the project can be easily identified by using the tag editor and cross-references.

### System Requirements

- Windows 7 (32-bit/64-bit), Windows Vista (32-bit), Windows XP (32-bit, Service Pack 3 or later)  
(Ensure that your operating system has the latest update from the Microsoft Windows Update website)
- 1.0 GHz or faster CPU
- Microsoft.NET Framework 3.5

- 512 MB RAM (1 GB recommended)
- 800 MB hard disk space
- Screen resolution of 1024 x 768 or more
- Mouse, CD-ROM drive, administrator account
